

## THE TAU TREE OF LIFE HEALING COMMUNITY

### The Tau symbol of Saint Francis

Here we have a sacred symbol that genuinely represents peace, unity, wholeness and nurturing for all light workers. Today, light workers are facing many challenges in their professional and personal lives leaving them feeling depleted in energy and isolated from one's fellow therapists/family. Under the guidance and vision of Sean Bradley, known as the Barefoot Angel Man, the students and therapists of the 'Sean Bradley Academy, a non profit making initiative supporting light workers to self heal and reconnect with the Sananda Jesus, the Magdalene/angelic energies, were given a 'channelled message from Lord Kutumi (Saint Francis) in July 2006.

The vision invited us to establish an interfaith community across the world supporting all therapists and carers access healing support and respite. Another important part of that vision was to challenge society to return to a more spiritual way of life, detached from the head, our ego, and embrace our divinity as co creators of the Father Mother God of all.

For over thirty five years, Sean has lived his life in the footsteps of Brother Francis continuing to pray for unity and peace for all people, regardless of faith issues. In early September, 2006, the vision for Tau from Lord Kutumi was born. The Tau Community is a charitable venture now awaiting official status as a charity before it can apply for grant funding.

***The members of Tau will come from all walks of life and as a spiritual family, we are totally united in our common purpose in providing services for Carers, light workers and clients that are non judgemental, and all embracing regardless of Colour, Ethnicity, Disability, Sexuality or Religious Persuasion.***

Being a member of the Tau Tree of Life Healing Community is like joining a family of 'soul mates' that eventually become Friends for life. Joining our spiritual family is taking a step closer to being an enlightened 'Spiritual Eco Warrior' for Source, the Divine Feminine, empowering all Light Workers to meet the spiritual and holistic needs of a changing /faceless world that has lost sight of its Divinity –Purpose –Mission.

***"Hold back nothing of yourself for yourself, so that he who gives Himself totally to you may receive you totally." St. Francis.***

The family of Tau cares for the 'Wounded Healer' in our society? Many people who have become therapists do so, because they genuinely want to help others; many come to train as therapists of the Academy because they have worked through healing themselves and feel they are in a position to help others. However, when we begin to help others, the healing of others naturally brings up unfinished business within ourselves. Unless we are fully aware of this, we can end up projecting our problems onto the already traumatized client /patient, sometimes in a very subtle way. Everyone likes to see a way of life lived and demonstrated so they can see for themselves that it is workable, that there is nothing theoretical or airy-fairy about it.

A recent channelled message from Sananda Jesus spoke a clear message to our hearts. "What you are doing here in this Centre of Light is something many will do in the days ahead. Therefore you hold a very great responsibility in your hands, and all that is done here must be clear for all to see. Never try to keep what you have found for yourselves. It has been given to you freely, therefore you must give it freely to those who ask and seek. You have done pioneering work; let others reap the benefit of your experience gladly and joyously. This is how this wonderful way of life will be speeded up, and more and more souls will live it and put it into practice until My kingdom is brought down on earth for all to see. With love and many blessings, Sananda Jesus.

The future of the Tau vision depends on all light workers taking it to their own hearts and making it a reality. Society needs light workers of integrity and who better than all of us to unite as one family in love and Light.

There is a practical way that you can support the Tau vision and the community by helping us form an alliance of Light Workers willing to embrace our Holistic Festivals. These Festivals will hopefully unite therapists to come together under one roof and share their skills to each other as well as the public. The end result will be to raise the profile of the vision and hopefully raise financial support for all light workers and carers.
