

**Essenic Energy Medicine / Therapeutic Channelling, working in
partnership with the Christ /Magdalene energies, underpinned by the
teachings of the Essenes.**

Therapeutic Channelling, as a Healing Therapy - Similar to an Eastern traditional healing therapy called Reiki, this method relies on channeling through the Christ Energies via the Angelic Realm, and pivots on information, which was given to Moses, when he received the Ten Commandments. The general consensus is that Moses did not feel that everyone was ready to receive this information, so it was given to the few faithful, who practiced the teachings. The information, found in a cave in the 1940's, became known as "The Dead Sea Scrolls". The teachings were still not given to the general public, as it was believed that they contradicted the Bible and so were locked away in the Vatican. The Teachings of the Essenes can boast to being a BLUEPRINT for solving the problems of the individual - and thus, ultimately, - WORLD PROBLEMS! The Therapy, which derives from it - owes much of its increasing popularity today, to ex-monk, Sean Bradley, who teaches therapists from his Academy in Storth, Cumbria.

THE CONTEXT IN TODAY'S SOCIETY - The pressures of modern day life are causing more and more stress –related and psychosomatic illnesses, and in a growing disillusionment with western medicine, and with the availability of more leisure time, in a worldwide quest- more and more people are looking for 'food for the soul' and a way to bring back peace and harmony into their lives.

Thus the popularity of Alternative and Complementary Therapies is growing to the extent, that even the once suspicious orthodox medical profession, are taking a more holistic approach and referring patients for treatments such as Aromatherapy etc. Patients themselves are taking matters into their own hands, in trying some of the Eastern Therapies, such as Reiki healing which have been around for some 2000 yrs.!

This is in comparison to our Western Orthodox Medicine, which can only boast several centuries!

THERAPEUTIC CHANNELLING -_is another such therapy which is really gaining momentum and was practiced by the Essenes up to 8000 yrs ago and around the time of Jesus Christ. As mentioned, the therapy relies on ANGEL POWER. Although there are some 385 direct references in the Bible, Orthodox Religions have sadly neglected angels. Perhaps this is because by using Angels to intervene for us at the throne of God, (although we don't need to do that, as we have a direct link) we are in less need of the clergy, as it puts the power back into the hands of the individual!

Angels seem to enjoy an increase in popularity every 20 years or so, but many people appear to have forgotten their credibility. They appear to overlook the fact that it was angels who heralded the birth of the Christ-child, and all the other references to them which are in the Bible and books of other major world religions, such as Islam, Maori, Shinto and Hindu.

In fact, Angels, since the beginning of creation are celebrated throughout mythology, and angelic visitations at a more personal level, along with delivery from adversity, are becoming more and more discussed. As is borne out by the fact that, in a recent survey, it was found that many people can name at least three Archangels-these being Michael, Gabriel and Raphael.

The Essenes also knew that the mind consists of both a conscious and sub-conscious section, and that these can be re-programmed to be more positive, by using positive affirmations, the first thing at morning, noon and last thing at night. In this respect and others, they were considered to be the ' Fathers 'of Psychology.

The Essenic beliefs appear to epitomize the common denominator of all religions, as these have influenced other major world religions such as: Brahmanism, the Vedas, the Upanishads, the Yoga systems of India, as well as Judeo/ Christian religions - who all accept the existence of angels.

THE METHOD OF THERAPEUTIC CHANNELLING – when CHANNELLING-the sitter is encouraged to relax, and possibly engage in a short meditation, to 'tune in ' to the Angelic Realm, the Archangel Princes Michael, Uriel, Gabriel, Raphael, Metatron, and the Angel Source are INVITED, INVOKED to bring through the Christ Energies, and THANKED for their Presence. The hands may be placed on the sitter's head or shoulders or even just the aura, the sitter's feet may be anointed with sacred oils during the treatment.

THE BENEFITS OF THERAPEUTIC CHANNELLING - As a Therapy, the rays are channelled through from the highest realms, it is a very beautiful, healing and uplifting experience. An indescribable feeling of peace and tranquility may descend on both channeller and sitter, along with beautiful white and golden light, in accordance with anecdotal evidence.

What exactly happens during the treatment is very hard to describe, but usually, both channeller and sitter report that something extra-ordinary occurs. The therapy speaks to the human condition and can CHANGE LIVES - by: empowering the sitter to change negative mind sets, Enlisting the help and guidance of the angelic realm in everyday matters, Self- healing mind, body and spirit, Restoring balance and reducing stress, Promoting well - being and even lengthening the life-span of the believer who puts the Teachings into practice. The therapy can be used on anyone who wishes to achieve any of the above benefits, And is completely SAFE.
