

A Challenge to all Light Workers seeking Truth and Wholeness as members of the Tau Tree of Life Healing Community

By Sean Bradley

The Members of the Tau Tree of Life Healing Community consists of fellow Light Workers, Carers and Therapists. They are a Spiritual Family of like minded individuals who seek empowerment through Spirituality, Education and Training plus providing excellence, equality and respect for all who join our family of soul seekers in search of UNITY, PEACE, HARMONY, BALANCE and TRUTH.

As a family of committed Light Workers we share the same ideals, philosophies, spiritual values in an all loving, all embracing Father Mother God/dess that unites all of us as one community in providing high quality training, nurturing and support for all its members.

Our core values as a loving family of Light Workers is to share 'Love and Light' to all who seek our support by providing client led services that are all embracing, all loving and sensitive to the needs of our local communities and all who ask for our support.

Our members come from all walks of life and as a family we are totally united in our common purpose in providing services for Carers and clients that are non judgemental, and all embracing regardless of Colour, Ethnicity, Disability, Sexuality or Religious Persuasion.

As a committed interfaith spiritual family we have all made an undertaking to support our new commitment as brothers and sisters sharing a common vision by forming the Tau Community. Available for all Light Workers, Carers and like minded therapists to join our spiritual family, embracing the healing energies of the Angelic Realms; the Divine Feminine and Christ Consciousness underpinned by the Angel (Feng Shui) Bagua and the ancient teachings of the Nazarene Essenes.

Our VISION is to share with YOU and others only the purest love from a heart of love. As light workers of integrity, we aim to Empower YOU to embrace your inner essence as a child of Love and Light and together we can make a difference in our world which is searching for simplicity and truth!

The Family of Tau is an interfaith community open to all Therapists, Light Workers, Carers and like minded therapists who are searching for a spiritual pathway.

We have been guided by the Ascended Masters to reunite as a Spiritual family that is now fragmented by ego to practice Love and Light in our daily life. We have been instructed by Mother Mary to adopt the spirituality and core values of Saint Francis of Assisi who represented only Love, Peace, Integrity, Spiritual Freedom, Honesty, Harmony, Balance, Love for Mother Earth and the animal kingdom.

We are a Spiritual Family of like minded seekers in search of Spiritual Truth. We consist of ordinary men and women who live simple ordinary lives. Our daily lives are lived out in an extraordinary way by sharing a common vision for the total well-being of our local community, our country and the wider global village. Our hearts are permanently fixed on sharing Love and Light through engaging in normal everyday activities. Our core values as a committed spiritual family empowers each one of us to make time for feeding and nurturing not just our mind and body but also our Spirit through quiet moments of silence and daily prayer either alone, with our loved ones, or with each other. We perceive 'Prayer' as anything spiritual that raises our consciousness to celebrate life and the sharing and exchanging of our love for each other with another in the presence of the 'I AM PRESENCE.'

Our Members are invited to embrace issues that affect each one of us on a global scale by sending out Love and Light. We are perceived as 'Spiritual Eco Warriors' re-educating society to respect the planet, a free gift to us from Source on a loan basis. Our core values are to address any imbalance in equality, peace, love, unity, harmony, hatred for another brother or sister. As members of the same global community, we have shared responsibilities to be 'spiritual advocates and nurture Love and Light by sharing Love with all. When a brother or sister is in pain then we, as one spiritual family are also affected both indirectly and directly!

Being a member of the Tau Community is joining a family of 'soul mates' that eventually become Friends for life.

Joining our spiritual family is taking a step closer to being an enlightened 'Spiritual Eco Warrior' for Source, the Divine Feminine, empowering all Light Workers to meet the spiritual and holistic needs of a changing /faceless world that has lost sight of its Divinity –Purpose –Mission.

"Hold back nothing of yourself for yourself, so that he who gives Himself totally to you may receive you totally." St. Francis.

On their Graduation and Final Attunement Day, our Therapist's are presented with the Tau symbol to wear on their person to show the world that we are 'One Spiritual Family' in service with Mother Earth and all that of Light Workers and Carers can affect change only from within! serves the 'I AM PRESENCE,' promoting harmony, balance and divine connectedness within the family of Love and Light. We as an interfaith community

It has been prophesied that when everything is right with the New World and the energies and vibrations are high, people will tend to live in communities. Money will probably be a thing of the past and, as of old, the trades people, artists, therapists, etc. will share their gifts with others. Life will be peaceful as it was meant to be. People will not be lonely or greedy. The communities will be safe places to live and fellowship will be shared.

To fully understand and comprehend the Tau vision given by Lord Kutumi to our students and therapists in July 2006, we need to reflect on who is the 'Wounded Healer'? Many people who have become therapists do so because they genuinely want to help others. Many come to train as therapists of the Academy because they

have worked through healing themselves and feel they are in a position to help others. However, when we begin to help others, the healing of others naturally brings up unfinished business within ourselves. Unless we are fully aware of this, we can end up projecting our problems onto the already traumatized client /patient, sometimes in a very subtle way.

What has this to do with healers? Well, I believe that any agendas which lay unanswered within a person may surface when treating a patient/client. I would say that all healers first and foremost duty is to their clients /patients, and to act with the utmost humility, compassion and ethics, understanding that their skills do not come from themselves, but from God. Then they have a duty to themselves to keep body and mind as pure as possible through right nutrition, right thoughts and right actions.

Maybe it seems a tall order, but when many lives are at stake, it is a necessary order. The world needs powerful healers who are in control of themselves and know who they are. Are YOU working from a safe place right now? If not, then maybe we can help each other to grow...

We achieve our aims by listening to the voice of Sananda (Jesus), ' Love one another as I have loved You.' We do this by:

- » Sharing His love and light when we meet as one caring family of soul seekers in a community, The Academy made up of brothers and sisters who share one common goal. That goal is divine love rooted in the orthodox teachings of Jesus, the Nazarene Essene, underpinned by the ancient teachings of St Francis and the Angel Healing Bagua.
- » Empowering each other to feel safe and loved as one family who care for the whole person.
- » Respecting confidentiality as sacrosanct.
- » Encouraging each other to speak one's truth from a place of love.
- » To observe negative voices that may colour one's judgement of a fellow therapist thus losing out on their skills and gifts for the whole family. We are to eradicate discontent at grass roots level.
- » Embracing the Christ / Magdalene energies within each other through mutual respect and managing diversity with love not hate.
- » Supporting a fellow member /therapist who may have lost sight of boundaries in their relationships with each other and /or with their clients.
